Delivery

Free delivery on selected items. Please refer to individual page for exceptions. Surcharge of same day delivery or time deliveries. Please consult office for further details.

Transport Notice

Transport agents will not accept retrospective claims for damaged equipment once the delivery docket has been signed. A consignment note signed 'unexamined or unchecked is not sufficient to uphold a claim. Equipment delivered must be carefully checked/unpacked to ensure it has been received in perfect condition before signing the transport agent's docket. The responsibility of ensuring the goods are received in perfect condition is the responsibility of the consigned and noted the delivery docket. Failure to follow these procedures means that the damaged goods becomes the responsibility of the purchaser.

Order

Items marked ORDER are not in stock and can have a delivery time of between 1-4 weeks depending on the manufacturer. please consult office for further details.

Trading Conditions

Please refer to back of catalogue for trading conditions.

General Operation & Maintenance Guidelines

- Most refrigeration is designed to operate to Class 3 which is a maximum ambient temperature up to 25°C at the condenser and motor and a maximum humidity of 60%. If the temperature is not maintained below these guidelines it will result in poor function and an increase in internal temperatures inside the cabinet

- The condenser must be kept clean of dust or dirt on a weekly basis if it is not cleaned regularly potential failure of compressor and poor temperatures can result.

- Blocking of air vents on unit or replacing panel without sufficient ventilation holes will result in poor operation or damage to unit.

- Units must be placed in areas of ventilation or where ventilation can be installed to ensure heat can escape from the motor.

- Placing of units in direct solar glare will affect temperature of cabinet and products on display. For example, manufacturers lighting guidelines are 600 lux.

- Refrigeration units should not be placed near sources of heat or heating appliances.

- Ventilation fans, air-draughts or air-conditioning units cannot be placed behind open cabinets or in front of self-service refrigerated cabinets otherwise it will result in the breaking of the invisible refrigerated air curtain and cause units to freeze up and not work correctly. For example, manufacturers air velocity guidelines are 0, 2 m/sec.

- Products must be pre-chilled or frozen before placing inside display cabinets. In order for chilled product to be frozen a blast chiller is required. If chilled products are frozen in a standard ventilated storage freezer this will cause the build up of humidity and eventually lead to blockage of the evaporator with ice and possible compressor failure.

- Overloading of product inside cabinet will result in poor performance. Please refer to manufacturers manual or ask our representative for advice.

- Food Temperatures:
    1. Pre-chilled food +1°C / +4°C
    2. Bottle drinks and beer +1°C /+10°C
    3. Fresh meat ±0°C / +2°C
    4. Fresh Fish -1°C/+1°C
    5. Frozen Food -18°C / -22°C

Note

TRADING CONDITIONS

TAXES

All prices quoted are exclusive of VAT

TERMS & CONDITIONS

Full terms and conditions are available on request.

DELIVERY CHARGES

Free delivery on orders over €300 excluding spare parts and products which do not include standard delivery. Refer to products page as not all equipment includes free delivery. Spare parts are subject to a min €20 delivery charge.

WARRANTY

All products supplied with a minimum one-year parts warranty excluding parts classed as wearable such as bulbs, shelves, glass, elements and digital controllers.

DELIVERY

Goods must be checked prior to signing as we cannot accept claims for goods signed for in good condition. Unpacking, positions or assembling is not included in the price

E&OE

E&OE prices and specifications are subject to change without prior notice.

WEEE

WEEE products need to be recycled at the end of their life span by your waste provider

RETURNS & RESTOCKING

Only products which are standard stock items and have been approved by the company for re-stocking will be accepted. In this case a restocking fee of 25% is charged with 50% for goods unpacked including transport costs.

PAYMENTS

Payments accepted by cheque, transfers, 30-day accounts, credit cards/debit cards

OWNERSHIP

All goods remain the property of the company until paid for in full
